7 April 2020

Dear Valued Clients & Capital Partners,

The COVID-19 pandemic is causing massive disruptions to societies, economic systems and supply chains around the world, posing a threat to lives as well as livelihoods. For business leaders, the required management decisions range from significant to staggering.

Here in Singapore, the Government implemented a “Circuit Breaker” effective from today April 7, 2020 closing most workplaces for the next one month, except Essential Services and key economic sectors. Many of our clients are maintaining operations on a remote basis while other business clients will continue operations as Essential Services during the suspension period.

For these reasons, we will both maintain and expand our hours of operation and advisory scope of services to a 24 hour and 7 days a week basis (24 x 7).

In addition to our **Enterprise Value Creation** strategies and business advisory, we are providing **Enterprise Value Protection and Risk Mitigation** advisory to support you in these turbulent times. We are working with our clients on business scenario analysis, human resource management-compliance-welfare, financial and cash flow modelling, and operational & information technology improvements, including Business Continuity Planning.

Although we are following the Singapore Government directives issued on April 3 and our Suntec Tower office work premises is closed for the next month, our operating teams are fully active and working remotely in full capacity.

We are fully using all available remote internet technologies, including teleconference and group video call services to support our clients’ needs (Skype, Zoom, MS Teams and Webex video and teleconferencing).

We hope that all of your employees and families are safe and sound. We appreciate your continued and highly valued support, especially during these challenging times.

Together we will get through this. Please stay healthy and safe.

Sincerely,

From the Entire Team at Seine Pacific Capital Partners
